

Doctoral Studies for International Students

📅 23-11-2024

Our university offers research-oriented doctoral studies for international students. Our programs are focused on science and innovation, creating extensive opportunities for students to gain in-depth knowledge in specialized fields and achieve scientific accomplishments.

Admission Process

Admission of international students is carried out through the portal.edu.az platform.

The list of required documents is available [here](#).

Admission Period:

The admission process is conducted once a year:

July - September

Submission of Documents:

After arriving in the country, students must submit the following documents to the Department of International Education Programs:

Student visa (60-90 days).

Temporary/permanent residence permit issued by the State Migration Service of the Republic of Azerbaijan.

- A legalized or apostilled document confirming previous education
- International passport
- Health certificate covering HIV/AIDS, Hepatitis B, and Hepatitis C

Features of the Doctoral Program:

- Students conduct scientific research in their chosen fields and work on academic publications.
- Each doctoral candidate works with an individual scientific supervisor and specializes deeply in their dissertation topic.
- Students have opportunities to collaborate with foreign universities and research centers.
- Our university provides a modern educational environment equipped with laboratories, research centers, and resources.

Duration of Study and Fields

Duration of study: Doctoral programs usually last 3-4 years.

Students may benefit from programs in various specializations to support their scientific activities.

Why Choose Our University?

- Our university provides students with high-quality research education.
- Opportunities are created for participation in international scientific events and for presenting research results to the global academic community.
- Students develop their research by working with experienced scholars and professors.
- Through joint projects and programs with foreign universities, students gain broad practical and academic experience.

Our doctoral program is the best choice for realizing your academic and scientific ambitions.
